DELIVERING ON DEMAND, SAFELY

At Sabert, we understand that the right packaging plays an important role in a successful delivery program. We're here to help you navigate the demands of today's environment and can help build safe delivery programs that maintain food quality and fulfill consumer's high expectations.

1 in 3

consumers are willing to trade food quality for convenience¹

74%

of consumers have ordered delivery or pickup in the last three months¹

**more than
HALF**

of consumers order only delivery or pickup when there is a promotion¹

53%

agree that one bad delivery experience would make them not order from that restaurant again¹

34%

agree that ordering through an app is easier than ordering directly from the restaurant¹

NAVIGATING THE SHIFT TO OFF PREMISE DINING

- **Enhance the Experience:** Utilize packaging designed to meet delivery needs and maintain the experience customers count on
- **Use Products that Perform:** Containers with locking and stackable lids prevent leaks and spills, making travel in a car or a delivery bag safe and secure
- **Keep Food Integrity:** Compartment containers help protect flavors while reheatable options provide simplicity avoiding replating and additional clean up
- **Consider Advanced Security Options:** Tamper Resistant containers, bags and bagged cutlery ensure once a meal is prepared it remains unopened in transit
- **Shift From Multi Serve to Single Serve:** Meals traditionally served in containers designed to serve groups can be transitioned to single serve options to promote distancing while maintaining quality
- **Simplify your Menu:** Review menu offerings and select items that increase efficiency to reduce customer wait times, and packaging that simplifies back of house operations (hinge containers and clear lids)
- **Promote Social Distancing:** Contactless dropoff, curbside pickup and cashless payments are all options to provide customers and employees peace of mind
- **Keep it Sustainable:** Using containers made from compostable pulp or recyclable* plastic, reduces waste and ensures regulatory compliance
